# RacloThane

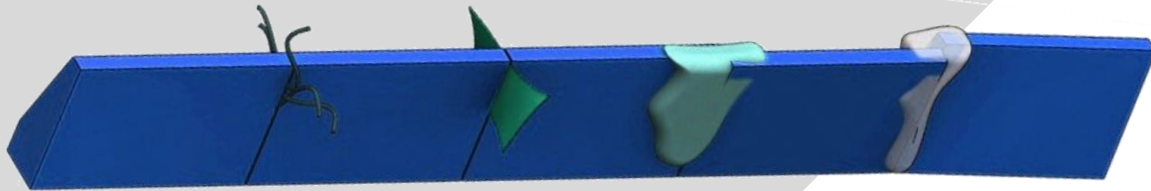

Polyurethane  
secondary mono-blade  
scraper

Designed by TechnicGum in Belgium  
Made & Assembled in European Union

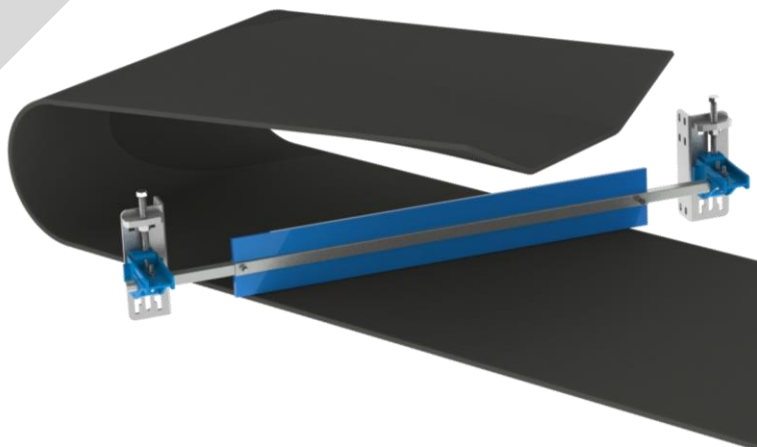

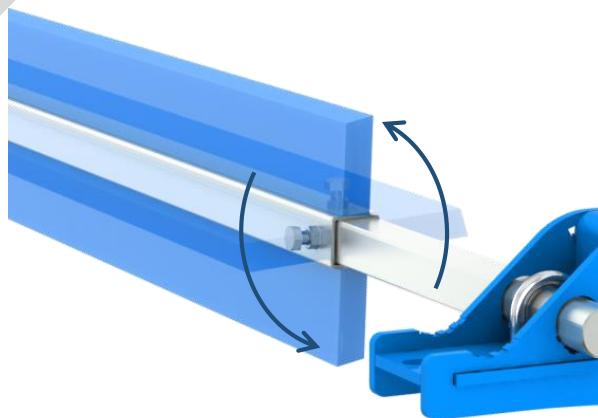

The RacloThane is a mono-blade design without risks, simple, economic, low clogging, compatible with staples and highly damaged belts

The two-sided design of the RacloThanne allows to have a new blade in the shortest time by simply turning it at 180°

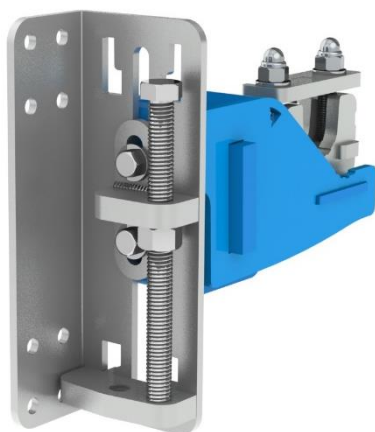

The cost price is then divided by two

Installed between both runs of the belt, the RacloThanne becomes an efficient diagonal plow, easy to install and compatible with two ways belts (forsee belt width +25%)

## Options et accessoires

**Pulling pressure**  
Enables the pressurisation of the scraper from the top without going beyond the angle

**Special key**  
« MultiTool »  
Grouping every necessary functions for manipulation and setting of scraper
